

Discover Trio's can-do philosophy

Breaded Veal Cutlet

Rice Ball

With over a quarter century of hospitality experience, we understand how to work within a corporate office environment or manufacturing plant – and the need to be ready, willing and able to handle special catering, event or menu request with very short notice. Often, we can complete special requests in less time than our corporate competitors need just to pass the special request up the management chain.

Plus we are now leading the industry by offering a cooking technology that provides tasty meals with zero trans fat and no frying – the perfect solution to meet the growing demand for healthy – and tasty meals.

Vending Machines

Our solutions can include state-of-the-art vending machines for maximum convenience and additional commissions.

“Today’s soup could very likely be the best soup I have ever tasted. Thank you and keep cooking.” – Karen Tolfo, Benefits Dept., York Catholic District School Board
